

CASE STUDY

Kamal Faruk

Thank you for taking the time to answer these questions.

What challenges/problems were you having with your investing that necessitated a change?

My main challenge is probably what everyone faces which is inconsistency in my performance and my profit. This was due to having to plan or structure in place. There was a lot of guesswork involved. I had tried a number of courses from the cheap to the expensive and joined a number of communities but the more information I was exposed to the more cluttered my approach became. My performance got worse and with that of course I was getting more frustrated and losing hope that I would find a system that would work.

What made our solution stand out over others that you researched?

A number of things. First of all, Sublime Trading teaches a more investment style which is exactly what I wanted. I am a very busy personal trainer in the City. I make a good living but I am short of time. I am also married and have two kids who are my inspiration and driving force in life so this is for them. I tried the day trading thing and I can tell you it does not work. Your personal and professional life will suffer. Secondly, the coaching involved showing me how to manage my portfolio around my lifestyle and then the real attraction to Sublime Trading was them teaching me how to use spread betting accounts as they are tax-free here in The UK. I was really struggling to use mine but they cleared that right up. Why more people learn to use them correctly is beyond me. Sublime Trading ticks all the boxes. Zaheer and Kola have created the perfect approach for busy people like me.

How did our team help with the learning and implementation of the methodology?

The learning is super slick. I was genuinely blown away by how quickly they decluttered my brain with all the trash I had picked up and within hours I was ready to execute a proper strategy. The video syllabus is second to none. The community support throughout the week is on point and always consistent. The signal service is a breath of fresh air. I now have a routine in place that takes me a few minutes a day to manage my portfolio.

How was the ongoing mentoring & what difference did it make with the learning and implementation?

In short, it is priceless. There is support and accountability at every step of the way which is crucial in the early stages of gathering momentum. I love how Zaheer and Kola are fully involved in the community and have not left it to other members to run, something which is all too common. In fact, that is how I met Zaheer and Kola who were left to run a previous community I paid a lot of money to join. I am delighted they broke away and started Sublime Trading. And I know I am not alone in this. This community is a great place for like-minded people to come together and work together towards our investment goals.

What % growth have you achieved to date to show the success you have enjoyed with our service?

I have made over

20% per annum

over the last 4 years

How will you use our solution going forward to grow your wealth?

The Sublime Trading solution is a long-term plan to help grow generational wealth for me and my family. I am very confident and have been with the team since the start. My game plan is to continue to compound my wealth over the next 20+ years and eventually pass this priceless knowledge on to my children. This is my responsibility to them and joining Sublime Trading has allowed me to do that.

Investing in the financial markets remains one of the most popular ways for busy professionals to build wealth. The number one challenge however for those earning a decent salary is not being able to invest it correctly.
